The Intimate  
History of Jet

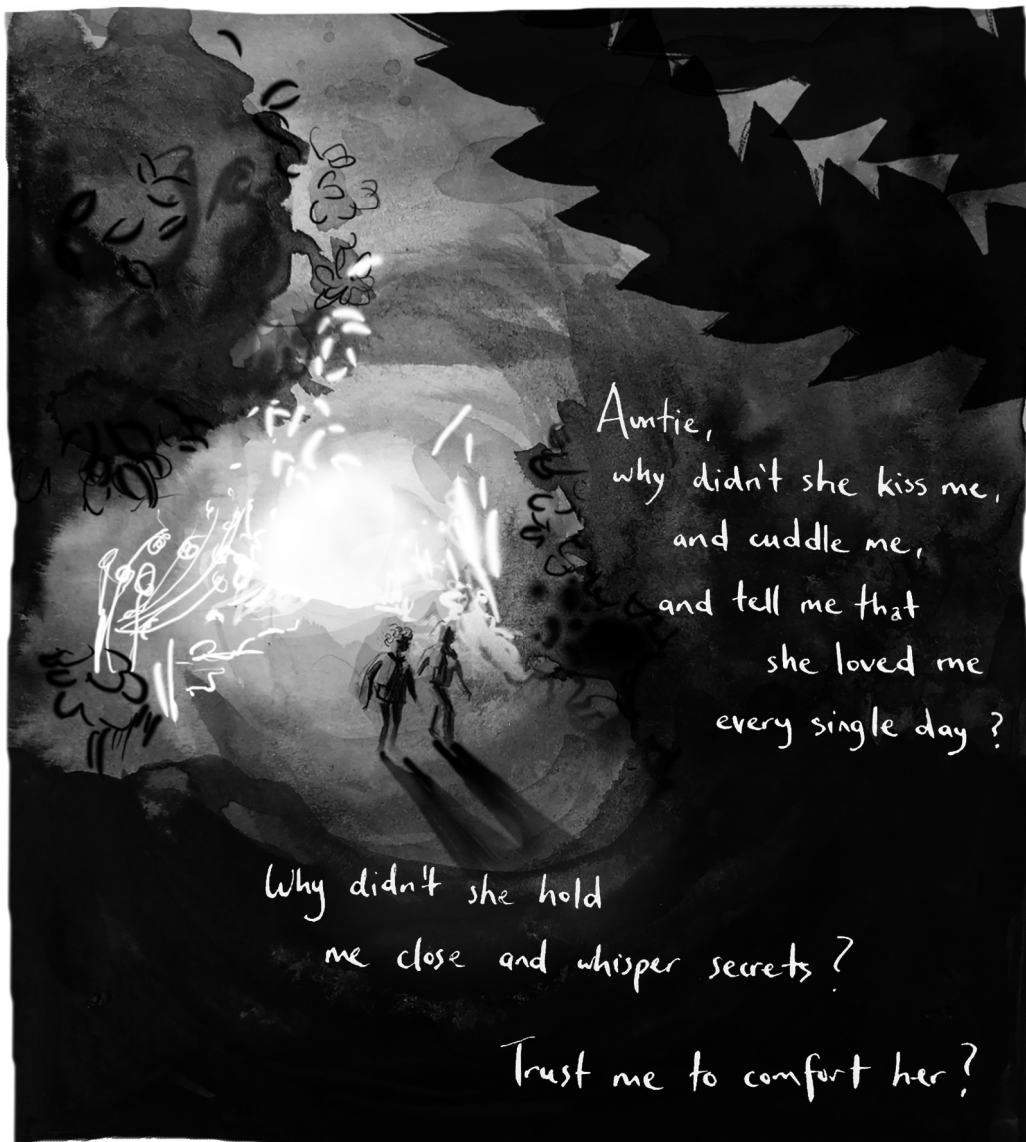

Fig.1. Araucariaceae trees grew in Whitby 180 millions years ago.

Fig. 2. Fallen trees sank to the bottom of the inland sea.

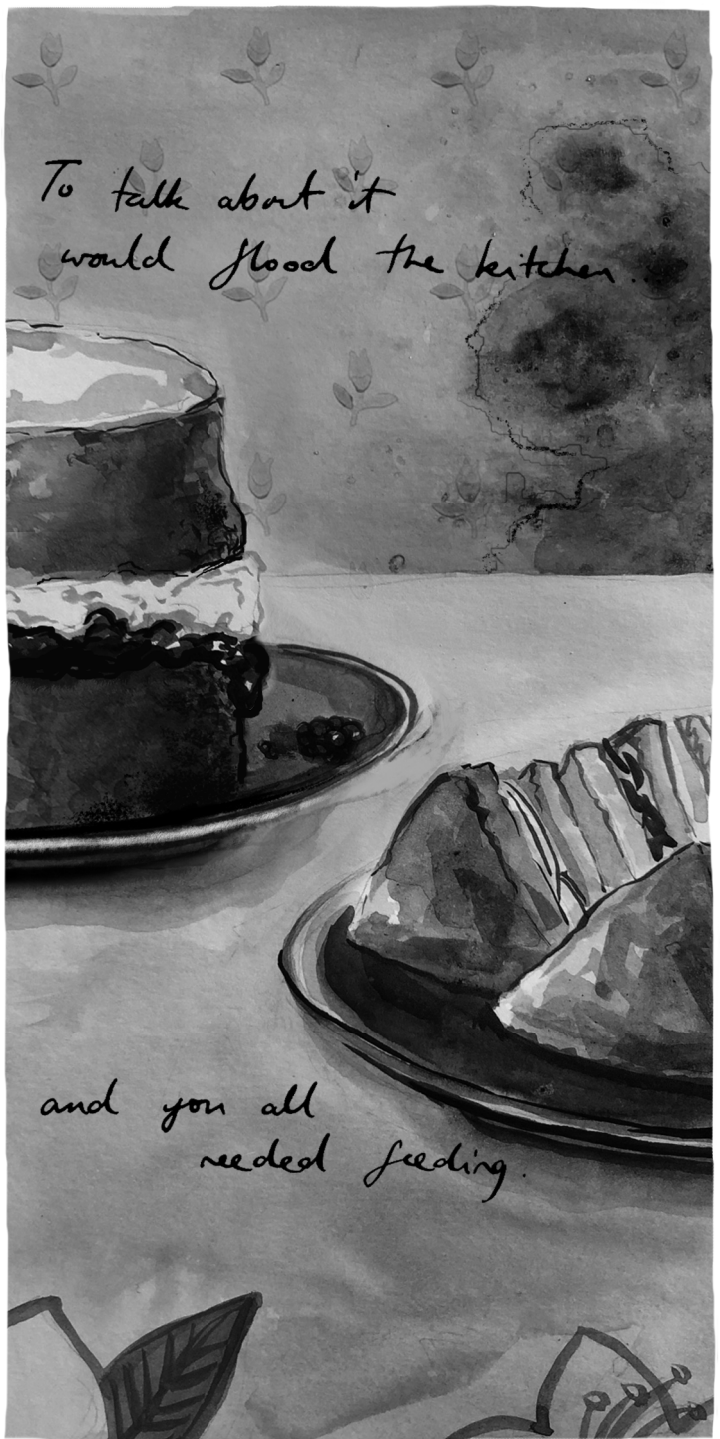

Fig.3. Embedded in the salty mud,

Sorry... I just wanted to understand.

You know that  
we could always feel it -  
even if it wasn't said.

...they were subjected to heat and pressure for millions of years.

Fig. 4. Eventually the folded seabed fractures and rises...

... revealing the carbonised wood.

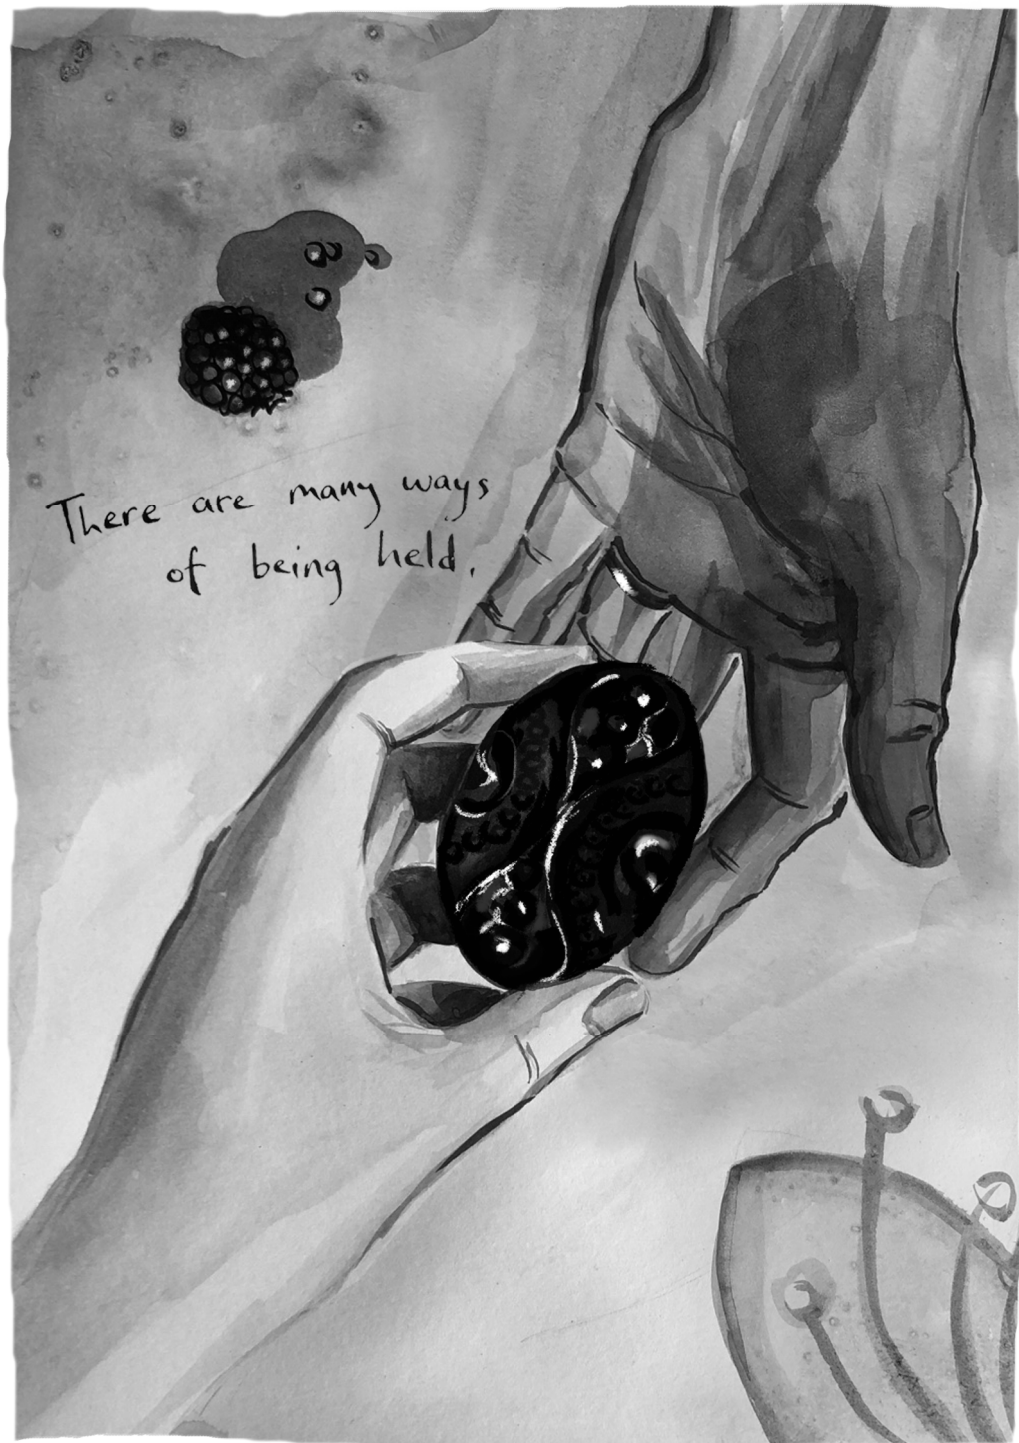

Fig. 5. This is jet.
